

Podiatry

WHAT IS A PODIATRIST

A Podiatrist (the modern word for Chiropodist) diagnoses and treats conditions relating to the foot and lower limb. Both titles are "protected" by the Health & Care Professions Council (HCPC), who ensures practitioners have the necessary credentials to practice.

ROUTINE CHIROPODY £35.00

General foot and nail care to improve comfort and reduce any aches or pains. This routine service is ideal for patients who struggle to look after their own foot care because of poor eyesight, difficulty bending, arthritis or any other health conditions.

NAIL SURGERY From £275

A minor surgical procedure to treat and remove painful toenails with the use of local anaesthetic. The treatment involves removing either a portion of the nail or the entire nail and phenolisation takes place to prevent nail regrowth.

DIABETIC FOOT CARE £35.00

As HCPC registered Podiatrists we have extensive experience in treating patients with diabetes. Your circulation and sensation will be checked followed by nail cutting, callus/corn removal and a suitable emollient used to moisturize the feet. Your treatment will end with helpful guidance on keeping your feet healthy.

VERRUCA TREATMENT £35.00 per treatment

Following initial assessment, the Podiatrist will advise on the exact nature of the problem and suggest treatment options.

NAIL RECONSTRUCTION From £40.00

Restore and protect nails through clinical nail reconstruction. Consists of the removal of damaged or infected nail then rebuild a false nail.

HOME VISITS AVAILABLE From 35.00

This is an invaluable service to patients who find it difficult to leave their home because of long-term health conditions and disabilities.

WHAT DOES IT MEAN TO BE AN AESTHETIC PRACTITIONER?

This is a role that is primarily within the Medi-spa Sector. It is focused on skin and skin health, understanding how the skin functions and the options available to help clients improve and optimise their skin.

- Please Note: A consultation is required for all aesthetic treatments and a plan is agreed between the client and the practitioner. £25 This is redeemable against the treatment plan.
- Due to the muscles being stronger on a male client more product is generally required, this will incur a further charge.
